# LED Lighting

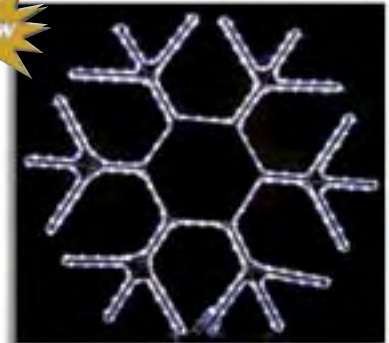

LEDs offer the latest in technology: The most intense light, longest life, lowest energy use, and lowest heat of any lighting product on the market today!

## LED C6 Mini Lights

- 100,000 hour lamp life
- 60,000 hours lamp life (White)
- Minimal heat for maximum safety
- Uses 80-90% less electricity
- Strong UV rating for outdoor use
- Longer runs of lights on one electrical outlet
- Diodes are much stronger than standard bulbs

## LED Snowflake

- 24" x 24"
- 50,000 hour (average life)

## LED Clip Light (CLED)

- Minimal heat for maximum safety
- Available in 7" spacing on black wire
- Available in white, blue, red and amber
- Incandescent clip light also available
- 60,000 hour lamp life for White (Clear)
- 50,000-100,000 hour lamp life for colors

- Perfect for low voltage (12V) tree lighting, architectural outlines, signs
- Extremely low energy consumption (.3 watt per LED)

## LED Shamrock

- 20" x 19"
- 50,000 hour (average life)

## LED Rope Light (LED-DL)

- Brighter, clearer, more intense light than standard incandescent rope light
- Longer life: 100,000 hour for Red and Yellow; 50,000 for Green and Blue and White
- Longer maximum runs: up to 300 feet
- Minimal heat for maximum safety

- Lower wattage; uses 80-90% less energy than standard Rope Light
- More durable: no filaments or bulbs to break
- Bulbs are gas powered and will eventually fade over time, but will not "burn out"

## LED Wreath

- 36" x 36"
- 50,000 hour (average life)
