

Xenon 12V Puck Light

Cooler than Halogen and longer lamp life makes this a perfect solution.

Surface mount height: 1 3/8" 

Recess mount height: 1/2", Diameter: 2 5/8"

- Does not emit damaging ultraviolet (UV) rays
- Dimmable
- Includes 120V Xenon light bulb(s) – 10,000 hours (average life)
- Lasts four times longer than Halogen
- 48" Lead wire with screw-down terminal block
- Frosted, glare-free, twist-lock lens
- Ventilation pins provide airflow between puck light and mounting surface
- Can be used in a variety of cabinet applications
