

## Product Information

Diogen Lighting's GU10's are designed to replace standard halogen GU10 bulbs with a longer lasting, highly efficient alternative. The innovative LED technology ensures reliable operation for more than 50,000 hours, as well as minimal to no heat generation.

Durability and price point make these GU 10 bulbs ideal for any traditional application such as track lighting, spot lighting and more.

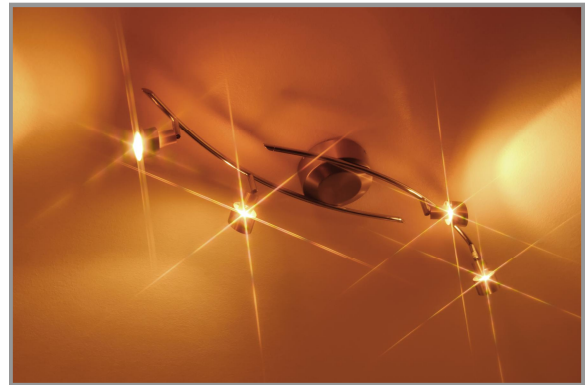

With less than 3 watts of power consumption and more than 120 lumens of light output , this GU 10 lamp has it all.
