

## Product Information

Diogen Lighting's T8 tube is designed to replace the traditional daylight tube. The innovative LED technology allows for longevity and energy efficiency; lasting up to 50,000 hours and using only 17 watts\* of energy. The T8 tube is 1200 lumens\* and is available in both warm white and cool white.

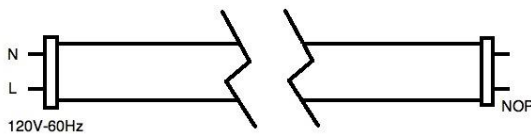

This T8 tube uses approximately half the wattage of most fluorescent tube and are recyclable and environmentally friendly. The T8 tube emits no UV and is ideal for food prep and storage areas, and library and museum applications.

This revolutionary ballast free technology and lamp longevity will allow for significant savings in maintenance over the life of the lamp.

\*Based on 48" 120V Cool White

## Product Features

	120V 24"	120V 48"	277V 24"	277V 48"
Power Consumption	9W	17W	9.5W	19W
Color Temperatures	3000-4000K Warm White 5000-6000K Cool White			
Number of LEDs	144	288	150	300
Initial Lumen Flux	600	1200	610	1250
Viewing Angle	120 Degrees			
Ambient Temperature	-20° to 40° C			

- **No Ballast Required**
- No glass to break
- Instant-On
- Dimmer Safe
- UL Listed
- Perfect for hard to reach areas

## Warranty

Rated Life	50,000 Hours
Coverage	2 years

\*All Specifications subject to change without notice
