75W Captiva Grande Floor Lamp

25C48BNF 25C48R7F

TUBE INSERTION / REPLACEMENT

Make sure that the lamp is not plugged into an electrical outlet.

- Insertion:**
- Carefully remove a bulb (1) from its box. To avoid breakage, do not bump, drop, or put pressure on the glass.
 - Hold the lamp by the socket head (4) and the bulb by its base.
 - Align the bulb with the holes in the bulb socket and firmly push. A 'click' sound should be heard. Lightly tug on the bulb base to ensure the socket has captured it.
- Removal:**
- If the lamp has been in use, allow it to cool approximately five minutes before proceeding.
 - Hold the lamp by the bulb socket head (4) and firmly grasp the bulb by its base.
 - Unseat the bulb by slightly rocking it while firmly pulling on its base.

BE CAREFUL TO AVOID BULB BREAKAGE FROM HITTING THE BULB ON THE LAMP SHADE (6) OR (2).

ASSEMBLY

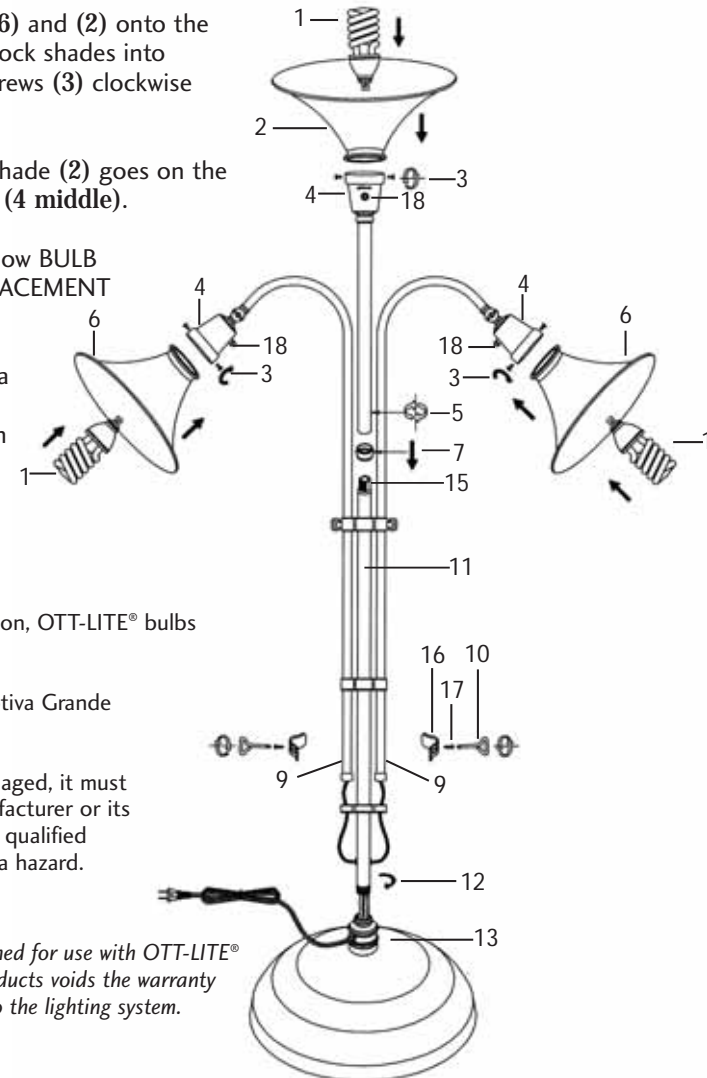

- Place slip ring (7) over lower pole (11).
 - Carefully screw the upper pole (5) into the lower pole (11) by hand. Work wiring into pole as needed to avoid pinching the wires.
- NOTE:** If the threaded insert (15) is loose from the upper or main pole (5), simply screw it back into the upper pole (5) before attaching the upper pole to the lower pole (11).
- Carefully screw the lower pole (11) into the base head (12) located on top of the base (13). Firmly tighten by hand.
 - If brackets (16) are not installed, then use a flat-head bracket screw (17) and the screwdriver provided (10) to snugly attach them to each side pole (9).

- Install the shades (6) and (2) onto the socket heads (4). Lock shades into place by turning screws (3) clockwise until snug.

NOTE: The larger shade (2) goes on the middle pole socket (4 middle).

- To install bulbs, follow BULB INSERTION / REPLACEMENT instructions.

- Plug the lamp into a standard 120V outlet. To turn each bulb on or off, turn switches (18) clockwise at the socket heads (4).

Please note that in operation, OTT-LITE® bulbs are not dimmable.

Enjoy your OTT-LITE® Captiva Grande Floor Lamp!

- If the supply cord is damaged, it must be replaced by the manufacturer or its service agent or a similar qualified person in order to avoid a hazard.
- Indoor use only.

This lighting system is designed for use with OTT-LITE® bulbs only. Use of other products voids the warranty and may result in damage to the lighting system.
