- 1 Carefully unwrap packing from lamp and shade. The glass shade is included in a separate box.
- 2 Insert the 13 watt swirl bulb (A) straight into the socket (B) until a “click” sound is heard. In order to remove the bulb from the socket, pull it straight out. Do not twist the bulb.

- 3 To attach the glass shade (C), carefully remove the shade from the box. Insert the shade into the socket head (D). Tighten the three screws (E), at the base of the socket head, by turning them clockwise until the shade is secure on the lamp.
- 4 In order to adjust the lamp shade to the desired position, loosen the knob (F) by turning it counter-clockwise. Adjust shade to desired position and tighten knob by turning it clockwise.
- 5 Plug lamp into a standard 120V socket and turn the power switch (G).

Please note that in operation, OTT-LITE bulbs are not dimmable.
