

13W Clip-On Lamp

L13516

TUBE INSERTION / REPLACEMENT

- 1 Make sure that the lamp is not plugged into an electrical socket.
- 2 If the lamp has been in use, allow it to cool for approximately five minutes before proceeding.
- 3 Rotate the shade so that the notch in the base of the shade is positioned over the tab located on the socket housing (refer to the diagram for proper shade position).
- 4 Remove the shade by pulling it straight out from the socket housing.
- 5 To remove a tube already installed in the lamp, grasp it firmly in your hand and pull it straight out of the socket. Do not twist or turn the tube while removing it from the socket.
- 6 To install a tube in the socket, grasp the tube firmly in your hand, position the tube so that it is aligned as pictured in the

diagram, then push the tube straight into the socket until it “snaps” into place.

- 7 To replace the shade, position it as indicated in the diagram, then push it back into the socket housing, making sure the shade “snaps” into place.
- 8 Rotate the shade to the desired position for use.
- 9 Plug the lamp into a standard 120V socket, and your lamp is ready for use.

LAMP ASSEMBLY

- 1 Make sure that the lamp is not plugged into an electrical socket.
- 2 Attach clip to table, shelf or other strong, solid surface.
- 3 Plug lamp into a standard 120V socket, and your lamp is ready for use.

Please note that in operation, OTT-LITE bulbs are not dimmable. Enjoy your OTT-LITE® Clip-On Lamp!
